### HEALTH OFFICER'S REPORT

For the year ending Dec. 31st, I have reported nine cases of measles, one of chickenpox, one of meningitis and 81 of mumps.

I have been called on official business 111 times, paid for telephone calls, \$1.20, and for printing and making dump signs, \$5.60, making a total expense of \$117.80.

The Selectmen have provided a dump near the Strafford - Thetford line on Route 132, which has helped a great deal in garbage disposal. Everyone is urged to use it, as it is burned over frequently, thus abating a very real nuisance.

GEO. E. BASSINGTHWAIGHTE,  
Health Officer.

## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Board of School Directors and Citizens of Strafford:

This report is for the school year ending June 30, 1949, and is a part of the report of the Board of School Directors required by law.

Four schools, two with one teacher, one with two teachers, and one with three teachers, were maintained for thirty-five weeks. The average number of pupils enrolled was 138, and the average daily attendance was 124.87. Tuitions were paid for two elementary school pupils and twelve high school pupils. The average cost per pupil was, for elementary schools \$142.09, and for high school \$125. Thirteen elementary school pupils were transported at an average cost of \$62.62.

The total number of different elementary school pupils enrolled was 143. Of this number, 116 were promoted one school grade, nine were promoted conditionally, seven were not promoted, nine were transferred to other schools outside of the town, and two dropped out of school. The number of children with physical defects reported by teachers were: hearing seven, and vision 22. Corrections reported were: hearing two, and vision ten. The number immunized were: from smallpox six, from diphtheria 14, and from tetanus 14. Thirteen pupils or 9.9% were above the normal age for their grade in school.

New approved fluorescent lights of the most modern type were installed in the Village and Old City schools. Appreciation is expressed to Joseph Maclay for his generosity in supplying fixtures, wiring and the work of installation at no profit or advantage to himself.

The State Department of Education has required every town and school district in the state to supply information as of Jan. 1, 1950, regarding its present school building needs and those that are anticipated during the next twelve years. The purpose of this study is to (1) determine the state-wide extent of new school building construction required to care for increased enrollments and (2) determine the extent to which state and federal resources would be required to aid local communities in necessary construction.

The facts from the Strafford study just completed are: (1) the present school buildings are adequate for the next

two or three years, if the present transportation arrangement between the villages is continued, (2) by 1955 the school at South Strafford will become very much overcrowded and some of the grades will almost certainly need to be again divided, requiring one grade per teacher; two additional classrooms will be needed, and (3) if the present rate of birth and employment conditions continue for four more years, the schedule for additional classrooms needed is as follows: by 1953-55 — one classroom; by 1955-56 — two classrooms; by 1957-58 — three classrooms; and by 1959-60 — four classrooms. The school would be organized with one grade per teacher, and the Millers Pond and Old City schools would have their capacity enrollment of 25 pupils each.

I am grateful to the school directors, parents, teachers, community organizations and townspeople for their support.

Respectfully submitted,

A. COURTNEY PARKER,  
Superintendent of Schools.

## VERMONT DEPARTMENT OF SOCIAL WELFARE

Montpelier, Vermont

In accordance with established custom, we are presenting a summary of State assistance payments during 1949 to individuals applying from Strafford.

These payments are financed entirely from State and Federal sources except Aid to Dependent Children in which the town or city participates to the extent of 12½% and Committed Children for whom the municipality reimburses the State for one-half the cost. The cost of all programs reflects to a large degree the economic consequences of the devaluation of the American Dollar in terms of purchasing power and its effect on savings and investments.

Approximately 80% of all welfare and assistance in Vermont is now paid by the State. Vermont has proportionately fewer individuals receiving aid and smaller average payments than the National average. Over 95 cents out of each public assistance dollar is paid to recipients and less than 5 cents is used for administration. No other State has a better record.

Old Age Assistance .....	\$ 6,652.10
Aid to the Blind .....	223.00
Aid to Dependent Children .....	675.90
Adult Crippled Aid .....	552.00
Committed Children .....	453.39
Total .....	<u>\$ 8,556.39</u>

W. ARTHUR SIMPSON,  
Commissioner.
